Part 2		What do you like about using Virtual Reality to teach safety?	
0001	Cool	0014	Give more view of what I am learning
0002	It is different Interactive Innovative	0015	You can see what it looks like What the dangers look like
0003	It is more appealing It is different	0016	Something new
0004	Something new Good for games, work, etc. Keep short time on it (hard on the eyes)	0017	It shows all the dangers
0005	I think it makes it a lot more fun	0018	Like 360 degree pictures Information was nice and brief
0006	It makes it a little more fun	0019	Much safer than bringing someone unexperienced to hazardous sites
0007	Real life picture I like	0020	Nice to have the pop ups for questions
0008	It is safe Same viewing as on a job site	0021	Work hazard Teaches workers to identify hazards at a job site
0009	To show unsafe construction I would use this over a textbook or a lecture	0022	It was very interactive
0010	I think it is a good idea because it is almost like a hands on learning	0023	It is fun it is something new to use
0011	Virtual reality teaches you about the rules about safety and not to get close to the edge	0024	N / A
0012	It is a really cool experience It is fun to do	0025	If I had to, I would try it to see if it would work
0013	That keep your surroundings	0026	N / A

Part 3 How could this technology be best used?		
0001	Hands-on	0014 N / A
0002	Supervised	0015 To show a 360 view or something i.e. a place like where we shared
0003	N / A	0016 Before you start a job
0004	Again, for games Building structure	0017 Before you do a job site
0005	Teach other major problems to the current generation	0018 N / A
0006	To make it so you won't have to find what notes you read and didn't read	0019 Training new employees / students Designing on built buildings
0007	Good teaching too!	0020 Good experience for use before real time
0008	People training to be on a certain job	0021 Teach / training workers about work hazard safety
0009	Crime scenes	0022 To train people first hand
0010	It could be used to teach skills	0023 Teach people hazards (like it just did for me) Can teach people how to cook
0011	This technology could be used by plenty of things I have a virtual reality thing and I watch different videos for it	0024 Educational purpose I think it would be fun to use them in class
0012	To teach a lot of different jobs on this	0025 Where you cannot be on site
0013	Fun	0026 N / A

Part 4 What changes would you recommend to make this resource more effective?		
0001	Have more Have more to teach about (trades, school, etc.)	0014 It is good
0002	More affordable and less bulky	0015 Be able to walk around a room
0003	Nothing, it is good.	0016 No change
0004	Good for workplace Pretty much anything	0017 You can get some more workers to help you out
0005	Let them explore more than just a room at a time	0018 N / A
0006	Have less notes so you don't have to move around as much	0019 More interactive-ness
0007	N / A	0020 Little blurry
0008	I like it a lot	0021 Could not get it to focus Hurst my eyes
0009	More affordable	0022 Lower prices
0010	More job sites	0023 Find a better device other than a phone
0011	I wouldn't change it It is cool	0024 Before moving form one room to another ask questions about what that person has learned
0012	If you were able to walk around	0025 Cost effective
0013	Safe ones and if you could work alone	0026 N / A
