

Hurt at Work?

Recover While You Work!

Why modified duties are **GOOD** for you!

1. Keep earning a wage and vacation time.
2. Stay connected to your friends and co-workers.
3. Reduce the impact an injury has on you, your family and the community.
4. Maintain job stability.

Support your co-workers who are in a Return to Work program.

If you ever need modified duties, know your employer and co-workers will be there to support you too!

Did you know?

Human Rights and WCB legislation require employers to accommodate injured workers.
